SOLUCIONES APLICADAS:    

As a global partner, Grader was the one in charge of migrating the 22 Ernst & Young regional offices to an IP platform.

The proposal demanded two scale models, one to make tests at Grader's while the other one was tested at Pistrelli premises (Argentina) which was also useful as a "use case" as it was tested in a production area.

To accomplish every task, we follow the PPDIO (prepare, plan, design, implement and operate) organization in the following E&Y sites: 1 AR-BsAs, 2 CL-Santiago, 3 BR-San Pablo (FT-JK), 4: BR-Campinas, 5 San Pablo (JK), 6 BR-Salvador, 7 CO-Bogota, 8 CO-Medellin, 9 Recife, 10 BR-Curitiba, 11 BR-Blumenau, 12 BR-Pto Alegre, 13 BR-Belo Horizonte, 14 BR-Rio, 15 PE-Lima, 16 EC-Quito, 17 PY-Asunción, 18VE-Caracas, 19 VE-Valencia, 20 VE-Pto La Cruz, 21 BO-La Paz, 22 BO-Sta Cruz

The whole migration was done in 12 months. We thank all of Pistrelli's team for their enforceability, especially Pablo Cebro who balanced the bureaucratic with simple logic circuits pushing the project to target.
